Ask your child...

Q: Can you count to 120 starting at 101?

Q: What does the -e to the end screech guide mean?
A: What's your name -e goes to the end of a word when the vowel says its name.

Q: What number goes first in a subtraction problem? The part or the whole?
A: The whole.

Q: What new schema do you have about the sky?

Thank you!

Thank you to those parents that have filled out background check information and/or confidentiality agreements ahead of time. This is a requirement this year if you want to volunteer for field trips, field day, or in the classroom. We are trying to avoid hurt feelings by encouraging you to get those turned in as soon as possible☺

Coming up: September 29-October 3

Pathways- We will continue to practice saying the sounds in Vowel Town and practicing spelling sounds through segment and write.

Learning Target- I can segment individual sounds of spoken words.

Math- We will continue our daily math journal prompts and find parts of 10. We will also learn about doubles with sums to 10.

Learning Target- I can add and subtract fluently within 10.

Shared Reading- We are continuing our comprehension unit. We will discuss connections this week. We will talk about text to self, text to text, and text to world.

Learning Target- I can use a variety of comprehension strategies to ask and answer questions about a literary text.

Writing- We are continuing our personal narrative unit. The students will go through the writing process to compose a personal narrative about a small moment of time in their life.

Learning Target- I can write a personal narrative.

Science- We will continue the unit on the day and night sky. We will discuss the moon journals on Friday.

Learning Target: I can predict patterns in the day and night sky.
